

◀ le clou 7 inch ad display

le clou ad displays are the ideal solution for the smooth operation and advantageous deployment of advertising media at points of sale, as successfully demonstrated on more than a thousand occasions to date. These compact all-in-one systems – which, thanks to the industrial components contained therein, will not “run out of steam” even upon sustained use (24/7) – are available in various sizes and configurations, whereby each system includes standard tried and tested features such as card slots which are secured against access by unauthorised parties, an automatic on/off function together with an automatic play function and, in some cases, an integrated on-screen display (OSD) timer.
